#### Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

The image shows a digital interface for the 'Customer Problem Statement Template'. It is organized into a 2x2 grid of colored boxes, each with a title and a list of bullet points. The top-left box is yellow and titled 'I am'. The top-right box is blue and titled 'I am trying to'. The bottom-left box is light blue and titled 'But'. The bottom-right box is light orange and titled 'Which makes me feel'. At the bottom of the interface, there are navigation icons (plus, refresh, minus, list) and a 'Sign up' button.

### Customer Problem Statement Template

**I am**

- A data analyst
- A student working on a dataset project
- A researcher analyzing global heritage data
- A team member preparing insights
- A presentation creator
- Someone exploring global trends

**I am trying to**

- Analyze heritage site distribution
- Compare countries by number of sites
- Study Cultural vs Natural vs Mixed categories
- Understand year-wise growth trends
- Identify danger-listed sites
- Create charts and reports

**But**

- The dataset is large and complex
- There are many columns to understand
- It is difficult to identify key patterns
- Regional comparisons take time
- Some data may be missing
- Prioritizing analysis is confusing

**Because**

- I need clear insights for presentation
- I want accurate and meaningful results
- The project requires structured analysis
- Stakeholders expect proper visualizations
- Time is limited
- I must focus on important trends

**Which makes me feel**

- Confused at the beginning
- Overwhelmed by too much data
- Curious to explore patterns
- Motivated to find insights
- Challenged but interested
- Confident after organizing the data
